Ambassaden indsender vedlagt en artikel fra dagbladet Uusi Suomi, der oplyser, at de ulovlige aktiviteter på de nordkoreanske ambassader i de nordiske lande blev afsløret via USA's efterretningstjeneste CIA. Ifølge bladet var det en afhoppet diplomat fra den nordkoreanske ambassade i Helsingfors, der underrettede den amerikanske efterretningstjeneste om de ulovlige forhold på ambassaderne. CIA skulle derefter have videregivet oplysningerne til de danske myndigheder, der senere tog kontakt med de øvrige nordiske landes politimyndigheder i sagen.

Expulsion of North Korean Diplomats.
Amb. No 561 of 22 October 1976

Attached from the Embassy is an article from the daily newspaper Uusi Suomi, informing that the illegal activities taking place in the North Korean embassies in the Nordic countries were uncovered by the intelligence service of the United States, the CIA. According to the newspaper, it was a defector from the North Korean Embassy in Helsinki who informed the CIA about the illegal activities taking place in the embassies. Thereafter, the CIA brought this information to Danish authorities, who then contacted police in the other Nordic countries.
