**Iraqi plans for defending against the US invasion in
2003**

Citation:

"Iraqi plans for defending against the US invasion in 2003", April 2003, Wilson Center Digital Archive, Conflict Records Research Center, National Defense University, SH-MISC-D-000-592. Contributed by Steve Coll.
<https://digitalarchive.umd.edu/document/300737>

Summary:

This file contains different topics including information on Iraqi plans for defending against the US invasion in 2003. Iraqi officials discuss the utility of smoke screens, how to rig bridges for sabotage, the sewer systems, highways, and other infrastructure.

H.E. The Minister of Defense

Regards,

Kindly instruct the concerned party which is burning the black oil to abstain from burning the trench set to be burned at the present time in the vicinity of the sewage station (P3) located in district 649 because it will considerably affect the station which could possibly burn and incur damages as a result of the burning of this trench. Besides, the line conducting to the station is located under the trench which could lead to the breakage of the sewage system in the entire area of Al Ghazzaliyah.

Re./ Election of local popular councils

With regard to the confidential letter of the Higher Organization supervising the secret election of the local popular councils No. 47, dated March 16, 2003, reported to us by the notification of the Administrative Office of the Defense Ministry No. 430, dated March 19, 2003 and addressed to the governors and a copy of which was sent to our ministry, to the Office of the Minister,

1. To prepare appropriate places inside the voting center allowing the voter to cast his vote easily and freely.
2. Whereas the process of counting the votes should continue until it is over, it is very necessary to provide sufficient lux units in the voting centers not by buying them but from the residents of the area because it is possible that power breaks could occur at night during the counting of votes.
3. To work on supplying drinking water on the day of the election in the voting centers which are not supplied with water coming from water projects or water units and this by resorting to water tank vehicles and to work on making them available in the voting center during the voting hours.

Directorate of Military Engineering
No.: /First Division/2/54/3047
Date/ Muharram 1424 H.
Corresponding to/ March 28, 2003 A.D.

To:/ Bridging Brigade

Re./ To provide protection to the approaching individual

With regard to the confidential letter of the Office of Planning, No. 103, dated March 6, 2003, the Assistant to the Chief of Staff of the Army for Operations has allocated a military location in your brigade to prevent civilians from removing the [zamiij??] substance from the area adjacent to the bridge and to stop them from going in.

Kindly do what is required and inform us.
