We built dams as well, and speaking of that, the dirt that was used in them, was six times more than the high dam. I am talking about the dams that preserve water and prevent it from flowing. The Iranians must attack you and they must hammer us with artillery [unintelligible]. This is the theory of the Americans. Tomorrow they will say to us, "Your lands, your waters, your factories, and we will not start a war against you." We will immediately interfere. We do not feel greedy of their lands, their waters, their coast, or their oil wealth. If you would like, we will provide you with the maps, so that you can present them to Brother Mua'mar. That includes the public opinion in America [unintelligible]. I do not believe that the Americans or the Soviets would right now use the atomic bomb during war, but [unintelligible] and others who are always trying to keep their weapons [unintelligible]. Not to give a reason to the Arabs to possess the nuclear technology for military purposes, but this is an open discussion with the brain of the Arabic human. This is not a special situation for the Arabs because the Arabs are not in possession of it. It is a case to treat another case in Israel that is actually active right now. Speaking of Israel, all of the experts and the officials [pauses] in regards to the atomic bomb affairs and the affairs of the Middle Eastern region as they call it; they all admit that Israel is in possession of a number of these nuclear bombs [unintelligible]. Israel said to the Arabs [pauses] Israel decided conditions for the Arabs stating that if they did not keep up with them, they would use the nuclear bomb against them. In that case, what will happen to the Arabs, moreover, what will happen to the people? Under such extortion and under the shadow of such a dangerous situation. I believe that without the consideration of the losses that we suffered because of the Israeli action, the Zionist entity, the rapist entity, the midget entity, [unintelligible], they are merely crazy. Judaism, which suffered the Nazi oppression, is looking for a heaven territory. [People talking at the same time] The Zionist entity right now is actually sounding just like it was when it was</p>
